

UNI-CMA3

Exterior angle wall mount corner adapter for video security camera housings

Overview

This wall adapter is specially designed for corner mounting of compatible Sony video security camera housing
Suitable for outdoor installation, it allows to install the SNCA-POWERBOX power supply in a corner.

The adapter is ruggedly designed in stainless steel with a durable white powder coat finish.

The UNI-CMA3 can be used in combination of the following equipment:

SNCA-WM20FC

SNCA-WM20G

SNCA-WM40

UNI-WMB3

brackets SNCA-POWERBOX

Features

- **For convenient outdoor installation**

Bracket allows convenient installation of video security camera mounting hardware in a corner (on the external corner of a building, for example). It's possible to attach a bracket directly (SNCA-WM20FC, SNCA-WM20G, SNCA-WM40 and UNI-WMB3) or attach the SNCA-POWERBOX between the UNI-CMA3 and the bracket.

- **Tough, weatherproof design**

Bracket is robustly manufactured in stainless steel, finished with a durable white powder coated finish that's ideal for all-weather operation.
