

AXIS T93E05 Protective Housing

Unobtrusive housing with compact and slim design.

- > IP66-rated
- > Ease of installation
- > Compact design
- > One cable installation

AXIS T93E Protective Housing protects the AXIS M11 Network Camera Series where a fixed camera needs to be protected but still unobtrusive.

AXIS T93E05 features IP66 protection rating against the ingress of dust and high pressure water jets from any direction. The materials used in the enclosure, in combination with the camera, make the use of a window heater unnecessary.

Quick and easy installation thanks to Power over Ethernet connection. The network cable is further protected in the wall mount for tamper protection.

Various brackets and accessories are available for AXIS T93E05 Protective Housing, such as ceiling and wall brackets, column mounts and adapters. AXIS T93E05 comes with a wall bracket with an internal cable channel and ball joint.
