Warranty

Regulatory Information

Europe

- CE** This product complies with the applicable CE marking directives and harmonized standards:
- Electromagnetic Compatibility (EMC) Directive 2004/108/EC. See Electromagnetic Compatibility (EMC).
 - Low Voltage (LVD) Directive 2006/95/EC. See Safety.
 - Restrictions of Hazardous Substances (RoHS) Directive 2011/65/EU. See Disposal and Recycling.

A copy of the original declaration of conformity may be obtained from Axis Communications AB. See Contact Information.

Electromagnetic Compatibility (EMC)

This equipment has been designed and tested to fulfill applicable standards for:

- Radio frequency emission when installed according to the instructions and used in its intended environment.
- Immunity to electrical and electromagnetic phenomena when installed according to the instructions and used in its intended environment.

USA

Using an unshielded network cable (UTP) – This equipment has been tested using an unshielded network cable (UTP) and found to comply with the limits for a Class A digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference when the equipment is operated in a commercial environment. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instruction manual, may cause harmful interference to radio communications.

Operation of this equipment in a residential area is likely to cause harmful interference in which case the user will be required to correct the interference at his own expense.

Using a shielded network cable (STP) – This equipment has also been tested using a shielded network cable (STP) and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The product shall be connected using a shielded network cable (STP) that is properly grounded.

Canada

This digital apparatus complies with CAN ICES-3 (Class B). The product shall be connected using a shielded network cable (STP) that is properly grounded.

Cet appareil numérique est conforme à la norme CAN NMB-3 (classe B). Le produit doit être connecté à l'aide d'un câble réseau blindé (STP) qui est correctement mis à la terre.

Europe

This digital equipment fulfills the requirements for RF

emission according to the Class B limit of EN 55022. The product shall be connected using a shielded network cable (STP) that is properly grounded.

This product fulfills the requirements for emission and immunity according to EN 50121-4 and IEC 62236-4 railway applications.

This product fulfills the requirements for immunity according to EN 61000-6-1 residential, commercial and light-industrial environments.

This product fulfills the requirements for immunity according to EN 61000-6-2 industrial environments. This product fulfills the requirements for immunity according to EN 55024 office and commercial environments.

Australia/New Zealand

This digital equipment fulfills the requirements for RF emission according to the Class B limit of AS/NZS CISPR 22. The product shall be connected using a shielded network cable (STP) that is properly grounded.

Korea

이 기기는 가정용(B급) 전자파적합기기로서 주로 가정에서 사용하는 것을 목적으로 하며, 모든 지역에서 사용할 수 있습니다. 적절히 접지된 STP (shielded twisted pair) 케이블을 사용하여 제품을 연결 하십시오.

Japan

この装置は、クラスB 情報技術装置です。この装置は、家庭環境で使用することを目的としています。この装置がラジオやテレビジョン受信機に近接して使用されると、受信障害を引き起こすことがあります。取扱説明書に従って正しい取り扱いをして下さい。本製品は、シールドネットワークケーブル(STP)を使用して接続してください。また適切に接地してください。

Safety

This product complies with IEC/EN/UL 60950-1 and IEC/EN/UL 60950-22, Safety of Information Technology Equipment. The product shall be grounded either through a shielded network cable (STP) or other appropriate method. The power supply used with this product shall fulfill the requirements for Safety Extra Low Voltage (SELV) and Limited Power Source (LPS) according to IEC/EN/UL 60950-1.

Disposal and Recycling

When this product has reached the end of its useful life, dispose of it according to local laws and regulations. For information about your nearest designated collection point, contact your local authority responsible for waste disposal. In accordance with local legislation, penalties may be applicable for incorrect disposal of this waste.

Europe

This symbol means that the product shall not be disposed of together with household or commercial waste. Directive 2012/19/EU on waste electrical and electronic equipment (WEEE) is applicable in the European Union member states. To prevent potential harm to human health and the environment, the product must be disposed of in an approved and environmentally safe recycling process. For information about your nearest designated collection point, contact your local authority responsible for waste disposal. Businesses should contact the product supplier for information about how to dispose of this product correctly. This product complies with the requirements of Directive 2011/65/EU on the restriction of the use of certain hazardous substances in electrical and electronic equipment (RoHS).

China

This product complies with the requirements of the legislative act Administration on the Control of Pollution Caused by Electronic Information Products (ACPEIP).

English

Safety Instruction

⚠ WARNING

- The Axis product should be installed by a trained professional. Observe relevant national and local regulations for the installation.

NOTICE

- The Axis product shall be used in compliance with local laws and regulations.
- Store the Axis product in a dry and ventilated environment.
- Avoid exposing the Axis product to shocks or heavy pressure.
- Do not install the product on unstable brackets, surfaces or walls.
- Use only applicable tools when installing the Axis product. Excessive force could cause damage to the product.
- Do not use chemicals, caustic agents, or aerosol cleaners. Use a clean cloth dampened with pure water for cleaning.
- Use only accessories that comply with technical specification of the product. These can be provided by Axis or a third party.
- Use only spare parts provided by or recommended by Axis.
- Do not attempt to repair the product by yourself. Contact Axis support or your Axis reseller for service matters
- Use a limited power source (LPS) with either a rated output power limited to <100 W or a rated output current limited to <5 A.
- To comply with the IP66-rated design of the camera and maintain the IP66 protection, the supplied RJ45 Push-pull Connector (IP66) shall be used. Alternatively, use the RJ45

IP66-rated cable with premounted connector which is available from your Axis reseller. Do not remove the plastic network connector shield from the camera.

- The AXIS product shall be connected using a shielded network cable (STP). All cables connecting the product to the midspan shall be shielded (STP) and intended for their specific use. Make sure that the midspan is properly grounded.

Transportation

NOTICE

- When transporting the Axis product, use the original packaging or equivalent to prevent damage to the product.

Battery

The Axis product uses a 3.0 V CR2032 lithium battery as the power supply for its internal real-time clock (RTC). Under normal conditions this battery will last for a minimum of five years.

Low battery power affects the operation of the RTC, causing it to reset at every power-up. A log message will appear when the battery needs replacing.

The battery should not be replaced unless required, but if the battery does need replacing, contact Axis support at www.axis.com/techsup/ for assistance.

⚠ WARNING

- Dispose of used batteries according to the manufacturer's instructions.

NOTICE

- Risk of explosion if the battery is incorrectly replaced.
- Replace only with an identical battery or a battery which is recommended by Axis.
- Dispose of used batteries according to local regulations or the battery manufacturer's instructions.

Dome Cover Cleaning

NOTICE

- Be careful not to scratch, damage or leave fingerprints on the dome cover because this could decrease image quality. If possible, keep the protective plastic on the dome cover until the installation is complete.
- Do not clean a dome cover that looks clean to the eye and never polish the surface. Excessive cleaning could damage the surface.
- For general cleaning of the dome cover it is recommended to use a non-abrasive, solvent-free neutral soap or detergent mixed with pure water and a soft, clean cloth. Rinse well with pure lukewarm water. Dry with a soft, clean cloth to prevent water spotting.
- Never use harsh detergents, gasoline, benzene or acetone etc. and avoid cleaning the dome cover in direct sunlight or at elevated temperatures.

Français

Consignes de sécurité

⚠ AVERTISSEMENT

- Le produit Axis doit être installé par un professionnel formé.

Lisez attentivement le présent Guide d'installation avant d'installer le produit Axis. Conservez le Guide d'installation pour une utilisation ultérieure.

AVIS

- Le produit Axis doit être utilisé conformément aux lois et

réglementations locales en vigueur.

- Conserver ce produit Axis dans un environnement sec et ventilé.
- Ne pas exposer ce produit Axis aux chocs ou aux fortes pressions.
- Ne pas installer ce produit sur des supports, surfaces ou murs instables.
- Utiliser uniquement des outils recommandés pour l'installation de l'appareil Axis. Une force excessive appliquée sur l'appareil pourrait l'endommager.
- Ne pas utiliser de produits chimiques, de substances caustiques ou de nettoyeurs pressurisés. Utiliser un chiffon propre imbibé d'eau pure pour le nettoyage.
- Utiliser uniquement des accessoires conformes aux caractéristiques techniques du produit. Ils peuvent être fournis par Axis ou un tiers.
- Utiliser uniquement les pièces de rechange fournies ou recommandées par Axis.
- Ne pas essayer de réparer ce produit par vous-même. Contacter l'assistance technique d'Axis ou votre revendeur Axis pour des problèmes liés à l'entretien.
- Utilisez une source d'alimentation limitée (LPS) dont la puissance de sortie nominale est limitée à <100 W ou dont le courant de sortie nominal est limité à <5 A.
- Pour être conforme à la norme IP66 de la caméra et maintenir la protection IP66, il est nécessaire d'utiliser le connecteur pousser-tirer RJ45 fourni (conforme à la norme IP66). Sinon, utilisez le câble RJ45 compatible norme IP66 avec connecteur préinstallé, disponible auprès d'un revendeur Axis. Ne retirez pas le blindage en plastique du connecteur réseau de la caméra.
- Le produit AXIS doit être connecté à l'aide d'un câble réseau blindé (STP). Tous les câbles reliant le produit à l'injecteur doivent être blindés (STP) et destinés à leur usage spécifique. Assurez-vous que l'injecteur est convenablement mis à la terre.

Transport

AVIS

- Lors du transport du produit Axis, utilisez l'emballage d'origine ou l'équivalent pour éviter d'endommager le produit.

Batterie

Le produit Axis utilise une batterie au lithium CR2032 3,0 V comme alimentation de son horloge en temps réel interne (RTC). Dans des conditions normales, cette batterie a une durée de vie minimale de cinq ans.

Une batterie faible affecte le fonctionnement du RTC, entraînant sa réinitialisation à chaque mise sous tension. Un message de journal apparaît lorsque la batterie doit être remplacée.

La batterie doit être remplacée uniquement en cas de besoin, et pour le faire, contactez l'assistance technique d'Axis à l'adresse www.axis.com/techsup/ pour obtenir de l'aide

⚠ AVERTISSEMENT

- Risque d'explosion si la batterie est remplacée de façon incorrecte.
- Remplacez-la uniquement par une batterie identique ou une batterie recommandée par Axis.
- Mettez au rebut les piles usagées conformément aux réglementations locales ou aux instructions du fabricant de la batterie

Couvercle de dôme

AVIS

- Veillez à ne pas rayer, endommager ou laisser d'empreintes

sur le couvercle du dôme car cela pourrait altérer la qualité d'image. Laissez, si possible, la protection en plastique sur le couvercle du dôme jusqu'à la fin de l'installation.

- Ne nettoyez pas le couvercle du dôme s'il semble propre à l'oeil nu et ne frottez jamais sa surface. Un nettoyage excessif pourrait endommager la surface.
- Pour le nettoyage général du couvercle du dôme, il est recommandé d'utiliser un produit non abrasif, un savon neutre sans solvant ou un détergent mélangé avec de l'eau pure et un chiffon doux propre. Rincez bien à l'eau tiède pure. Séchez avec un chiffon doux et propre pour éviter les tâches d'eau.
- N'utilisez jamais de détergents agressifs, d'essence, de benzène ou d'acétone, etc. et évitez toute exposition directe aux rayons du soleil ou à des températures élevées lors du nettoyage

Deutsch

Sicherheitsvorkehrungen

- Das Axis Produkt muss von fachmännischem Personal installiert werden.

HINWEIS

- Die Anwendung des Axis Produkts muss unter Beachtung der örtlich geltenden rechtlichen Bestimmungen erfolgen.
- Lagern Sie das Axis Produkt in einer trockenen und belüfteten Umgebung.
- Achten Sie darauf, dass das Axis Produkt weder Stößen noch starkem Druck ausgesetzt ist.
- Installieren Sie das Produkt nicht an instabilen Halterungen, Oberflächen oder Wänden.
- Verwenden Sie bei der Installation des Axis Produkts ausschließlich passende Werkzeuge.
- Ein zu großer Kraftaufwand kann das Produkt beschädigen.
- Verwenden Sie keine chemischen, ätzenden oder aerosolhaltigen Reinigungsmittel.
- Verwenden Sie zum Reinigen ein sauberes, mit sauberem Wasser angefeuchtetes Tuch.
- Verwenden Sie nur Zubehör, das den technischen Daten des Produkts entspricht. Dieses ist von Axis oder Drittanbietern erhältlich.
- Verwenden Sie ausschließlich Ersatzteile die von Axis bereitgestellt oder empfohlen werden.
- Versuchen Sie nicht, das Produkt selbstständig zu reparieren. Wenden Sie sich bezüglich Reparatur und Wartung an den Axis Support oder Ihren Axis Händler..
- Verwenden Sie eine Stromquelle mit begrenzter Leistung (LPS), entweder mit einer Nennausgangsleistung von <100 W oder einem dauerhaft auf <5 A begrenzten Nennausgangsstrom.
- Verwenden Sie den im Lieferumfang enthaltenen RJ45-Anschluss zum Stecken/Ziehen (IP66), um die IP66-Einstufung der Kamerabauweise einzuhalten und den IP66-Schutz beizubehalten. Sie können auch das RJ45-Kabel mit IP66-Rating und vorbelegtem Stecker verwenden. Dieses erhalten Sie bei Ihrem Axis Händler. Entfernen Sie nicht die Kunststoffabschirmung des Anschlusses von der Kamera.
- Das AXIS-Produkt sollte mit einem abgeschirmten Netzkabel (STP) angeschlossen werden. Alle Kabel, die das Produkt mit dem Midspan verbinden, sollten abgeschirmt (STP) und nur für die bestimmte Anwendung eingesetzt werden. Stellen Sie sicher, dass der Midspan vorschriftsmäßig geerdet ist.

Transport

HINWEIS

- Bei Bedarf Axis Produkt in der Originalverpackung oder entsprechenden Verpackung transportieren, so dass Schäden vermieden werden..

Batterie

Das Axis Produkt ist mit einer 3,0 V CR2032 Lithium-Batterie ausgestattet, mit der die interne Echtzeituhr (RTC) versorgt wird. Unter normalen Konditionen hat die Batterie eine Lebensdauer von mindestens fünf Jahren.

Bei entladener Batterie ist der Betrieb der Echtzeituhr nicht mehr ausreichend gewährleistet, so dass die Uhr bei jedem Systemstart zurückgesetzt wird. Sie erhalten eine Protokollnachricht, wenn ein Batteriewechsel erforderlich ist. Batterie nur ersetzen wenn erforderlich. In diesem Fall kontaktieren Sie bitte den Axis Support www.axis.com/techsup/ für Unterstützung.

⚠ WARNUNG

- Explosionsgefahr bei fehlerhaftem Batteriewechsel.
- Ersetzen Sie nur durch eine identische Batterie oder einer von Axis empfohlenen Batterie.
- Verbrauchte Batterien sind gemäß örtlicher Bestimmungen oder Herstelleranweisungen zu entsorgen..

Kuppelabdeckung

HINWEIS

- Achten Sie darauf die Kuppelabdeckung weder zu zerkratzen, zu beschädigen oder darauf Fingerabdrücke zu hinterlassen, da dies die Bildqualität beeinträchtigen kann. Falls möglich entfernen Sie die Schutzfolie erst nachdem die Installation abgeschlossen ist.
- Säubern Sie niemals eine Kuppelabdeckung, wenn diese sauber erscheint, und polieren Sie keinesfalls die Oberfläche. Zu häufiges Säubern kann die Oberfläche beschädigen.
- Für die normale Reinigung der Kuppelabdeckung werden eine nicht-scheuernde, lösungsmittelfreie neutrale Seife oder ein entsprechendes Reinigungsmittel mit sauberem Wasser und ein sauberer, weicher Lappen empfohlen. Spülen Sie die Kuppelabdeckung gründlich mit lauwarmem sauberem Wasser ab. Trocknen Sie die Kuppelabdeckung mit einem weichen, sauberen Lappen, um Wasserflecken zu vermeiden.
- Verwenden Sie niemals starke Reinigungsmittel, Benzin, Benzol oder Aceton etc. und vermeiden Sie, die Kuppelabdeckung im direkten Sonnenlicht oder bei erhöhten Temperaturen zu säubern.

Italiano

Istruzioni di sicurezza

⚠ AVVERTENZA

- Il prodotto Axis deve essere installato da un professionista qualificato.

AVVISO

- Il prodotto Axis deve essere utilizzato in conformità alle leggi e alle disposizioni locali.
- Conservare il prodotto Axis in un ambiente asciutto e ventilato.
- Evitare di esporre il prodotto Axis a urti o pressioni eccessive.
- Non installare il prodotto su supporti, superfici o pareti instabili.
- Utilizzare solo strumenti applicabili quando si installa il prodotto Axis. Una forza eccessiva può causare danni al prodotto.
- Non utilizzare sostanze chimiche, agenti caustici o

detergenti aerosol. Utilizzare un panno pulito inumidito in acqua pura per la pulizia.

- Utilizzare solo accessori compatibili con le specifiche tecniche del prodotto. Questi possono essere forniti da Axis o da terze parti.
- Utilizzare solo parti di ricambio fornite o consigliate da Axis.
- Non tentare di riparare il prodotto da soli. Contattare l'assistente o il rivenditore Axis per questioni relative alla manutenzione
- Utilizzare una sorgente di alimentazione limitata (LPS) sia con una potenza di uscita nominale limitata a <100 W o una corrente nominale di uscita limitata a <5 A.
- È necessario utilizzare il Connettore push-pull RJ45 (IP66) in dotazione per mantenere inalterate le caratteristiche di tenuta e protezione di classe IP66 della telecamera. In alternativa, utilizzare il cavo RJ45 di classe IP66 con connettore premontato disponibile presso il proprio rivenditore Axis. Non rimuovere la schermatura in plastica del connettore di rete dalla telecamera.
- Il prodotto AXIS deve essere collegato con un cavo di rete schermato (STP). Tutti i cavi che collegano il prodotto al midspan devono essere schermati (STP) e destinati al loro uso specifico. Assicurarsi che il midspan sia collegato a terra correttamente.

Trasporto

AVVISO

- Durante il trasporto del prodotto Axis, utilizzare l'imballaggio originale o equivalente per evitare danni al prodotto.

Batteria

Il prodotto Axis utilizza una batteria al litio da 3,0 V CR2032 come alimentazione per il suo real-time clock (RTC) interno. In condizioni normali questa batteria avrà una durata minima di cinque anni.

Una bassa carica della batteria influisce sul funzionamento del RTC, facendolo resettare ad ogni accensione. Un messaggio di registro viene visualizzato quando la batteria deve essere sostituita.

La batteria non deve essere sostituita se non richiesto, ma nel caso in cui ci fosse la necessità di sostituirla, contattare il supporto Axis all'indirizzo www.axis.com/techsup/ per assistenza

⚠ AVVERTENZA

- Rischio di esplosione se la batteria viene sostituita in modo errato.
- Sostituire solo con una batteria identica o una batteria consigliata da Axis.
- Smaltire le batterie usate in base alle normative locali o alle istruzioni del produttore della batteria. duttore.

Coperchio della cupola

AVVISO

- Fare attenzione a non graffiare, danneggiare o lasciare impronte sul coperchio della cupola, perché potrebbe diminuire la qualità dell'immagine. Se possibile, tenere la protezione in plastica sul coperchio della cupola fino a quando l'installazione non sarà completata.
- Non pulire il coperchio della cupola che allo sguardo sembra pulito e non lucidare la superficie. Una pulizia eccessiva potrebbe danneggiare la superficie.
- Per la pulizia generale del coperchio della cupola, si consiglia di utilizzare un sapone neutro o detergente non abrasivo con acqua pura e un panno morbido e pulito. Sciacquare bene con acqua pura tiepida. Asciugare con un panno morbido e pulito per evitare macchie d'acqua.
- Non usare mai detergenti aggressivi, benzina, benzene o acetone ecc. ed evitare di pulire il coperchio della cupola

alla luce diretta del sole o a temperature elevate.

Español

Instrucciones de seguridad

⚠ ADVERTENCIA

El encargado de instalar el producto de Axis debe ser un profesional con experiencia.

AVISO

- El producto de Axis debe utilizarse de acuerdo con las leyes y normas locales.
- Almacene el producto de Axis en un entorno seco y ventilado.
- Evite la exposición del producto de Axis a choques o a una fuerte presión.
- No instale el producto en soportes, superficies o paredes inestables.
- Utilice solo las herramientas correspondientes cuando instale el producto de Axis. La aplicación de una fuerza excesiva puede provocar daños en el producto.
- No utilice limpiadores en aerosol, agentes cáusticos ni productos químicos. Limpie con un trapo limpio humedecido con agua pura.
- Utilice solo accesorios que cumplan con las especificaciones técnicas del producto. Estos accesorios los puede proporcionar Axis o un tercero.
- Utilice solo piezas de repuesto proporcionadas o recomendadas por Axis.
- No intente reparar el producto usted mismo. Póngase en contacto con el soporte técnico de Axis o con su distribuidor de Axis para tratar asuntos de reparación
- Use una fuente de alimentación limitada (LPS) con una potencia nominal de salida limitada a <100 W o una corriente nominal de salida limitada a <5 A.
- Para cumplir con el diseño de la clasificación IP66 de la cámara y mantener la protección IP66, debe usarse el conector RJ45 con clasificación IP66 suministrado. Como alternativa, use el cable RJ45 con clasificación IP66 con el conector montado previamente disponible en su distribuidor de Axis. No retire la protección del conector de red de plástico de la cámara.
- El producto de AXIS se conectará mediante un cable de red blindado (STP). Todos los cables que conecten el producto al midspan deberán estar blindados (STP) y diseñados para su uso específico. Asegúrese de que el midspan disponga de una conexión a tierra adecuada..

Transporte

AVISO

- A la hora de transportar el producto Axis, utilice el embalaje original o uno equivalente para no dañar el producto.

Batería

El producto Axis utiliza una batería de litio CR2032 de 3,0 V como fuente de alimentación para su reloj de tiempo real interno (RTC). En condiciones normales, esta batería durará un mínimo de cinco años.

Cuando la batería tiene poca carga, el funcionamiento del RTC se puede ver afectado, ya que esto puede hacer que se reinicie cada vez que se encienda. Aparecerá un mensaje de información cuando sea necesario sustituir la batería. La batería no debe ser reemplazada a no ser que sea necesario y, si es necesario, contacte con el soporte técnico de Axis www.axis.com/techsup/ para obtener ayuda

⚠ ADVERTENCIA

- Riesgo de explosión si la batería se sustituye de forma incorrecta.
- Haga la sustitución únicamente con una batería idéntica o que esté recomendada por Axis.
- Deseche las baterías usadas según las instrucciones del fabricante o las normas locales

Cubierta del domo

AVISO

- Preste atención a no arañar, dañar o dejar las huellas en la cubierta del domo, puesto que esto puede provocar una disminución de la calidad de imagen. Si es posible, mantenga el plástico de protección en la cubierta del domo hasta que se complete la instalación.
- No limpie la cubierta del domo si parece a simple vista que está limpia y nunca pule la superficie. Una limpieza excesiva podría dañar la superficie.
- Para realizar un procedimiento de limpieza general de la cubierta del domo se recomienda usar detergente o jabón neutros, sin disolventes y no abrasivos mezclados con agua pura, y un trapo suave y limpio. Enjuague bien con agua pura y tibia. Seque con un trapo limpio y suave para evitar las manchas de gotas de agua.
- Nunca utilice detergentes abrasivos, gasolina, benceno, acetona, etc. y evite limpiar la cubierta del domo a temperaturas elevadas o en contacto directo con la luz solar
