AXIS Body Worn Live

This is AXIS Body Worn Live

This is AXIS Body Worn Live

With AXIS Body Worn Live, body worn camera users can stream live video and audio over Wi-Fi® or mobile networks. Operators can view the live video. The video stream is encrypted for secure transmission.

There are two hosting options for AXIS Body Worn Live:

Axis-hosted – hosted in the Axis cloud. For more information about this option, see the *AXIS Body Worn Live Axis-hosted user manual*.

Self-hosted – hosted by you. For more information about this option, see *AXIS Body Worn Live Self-hosted user manual*.
